Dorchester, NE 1-402-946-2211 1-800-642-6439

2024 Fall Harvest Policy (Effective 9-1-24)

These policies are subject to change without notice.
(Same as 2022 & 2023 Fall Harvest Policies)

US No 2 CORN & US No 2 MILO

All corn and milo delivered will be automatically placed on delayed pricing contracts as they are delivered. They are allowed 15 days from the average date of delivery per farm with no charges. Delayed Pricing charges will start on the 16th day of delivery at a rate of \$.00197 per bushel per day (6.0 cents/month) reverting back to the average date per farm. Bushels not sold by 9-30-25 will be subject to a 15 cent fee. If a producer wants a warehouse receipt or open store, we need to be notified prior to delivery. We may limit the number of bushels placed on warehouse receipt or open store. Delayed pricing, open storage, grain bank, and warehouse receipted bushel daily rates are the same as 2022 and 2023.

US No 1 SOYBEANS

All soybeans delivered will be automatically placed on delayed pricing contracts as they are delivered. They are allowed 15 days from the average date of delivery per farm with no charges. Delayed Pricing charges will start on the 16th day of delivery at a rate of \$.0023 per bushel per day (7.0 cents/month) reverting back to the average date per farm. Bushels not sold by 9-30-25 will be subject to a 15 cent fee. If a producer wants a warehouse receipt or open store, we need to be notified prior to delivery. We may limit the number of bushels placed on warehouse receipt and open store. Delayed pricing, open storage and warehouse receipted bushel daily rates are the same as 2022 and 2023.

All loads will be graded individually. We may limit the amount of wet grain received at some locations according to the volume and our ability to handle the bushels. In order to speed up communication, we will have signs available at all locations for grain haulers to fill out when hauling grain across the scale. Please take advantage of this to show our scale people the grain ownership and divisions. Make sure that your drivers check every scale ticket for accuracy.

First delivered bushels will be applied to contracted grain. We ask that you notify us if you want paid immediately or defer the payment. This will eliminate issuing unnecessary checks.

Harvest is a very busy time on the farm and at your local Farmers Cooperative branch; let's not forget to put safety first and be patient in our efforts. Thank you and have a safe and bountiful harvest.
